A diary, or journal, is a permanent personal record that is kept of events, thoughts, and ideas associated with an individual. While some cultures think of diaries as being mainly a female pastime, the fact is that keeping a diary is an activity that people of both genders engage as a routine. Keeping a diary is an excellent means of documenting experiences and ideas that will have meaning later in life or possibly be of importance to the next generation.

In many instances, keeping a diary is something that people choose to do in secret. The thoughts and ideas that are written down in the text of a diary are often considered private. For that reason, people who choose to keep a diary over a number of years may only choose to share certain parts of the recorded text with people they know and trust.

There is no one proper way to keep a diary. Some people choose to make use of a diary as a means of recording day-to-day events, sometimes marking experiences that were out of the ordinary. Other people choose to write in a diary only when something new and exciting occurs in their lives. The diary provides a means of preserving memories associated with important happenings, such as births, deaths, marriages, promotions and other experiences that are likely to be of importance even after many years have passed.

For some people, a diary is a form of therapy that may help the individual to get through a crisis. People who undergo a life-changing experience such as the death of a loved one or a divorce are sometimes urged by counselors to make use of a diary as a means of allowing emotions to have some type of outlet. The ability to put down emotions and thoughts that are hard to share with another person in written form may help the individual to undergo a release and begin to move along in the healing process.

With the coming of computers and various types of voice technology, people now choose to keep a journal in a number of different mediums. A diary can be created using word processing software and saved as a file. One of the advantages of this approach is that it is possible to conduct a keyword search of the document in order to quickly locate any recorded thoughts or feelings connected with a given event or experience.

Audio diaries are also popular alternatives to the handwritten diary. With modern voice communications, it is possible to create an audio file that can be saved on a computer or some other electronic storage device like a CD-R. Later generations can

hear about the experiences of their ancestors in the actual voices of the people who had the experiences.

Woman: Excuse me, I think you are in my seat.

Man: Really? This is 22E, isn't it?

Woman: No, it isn't. It's 22F. That's 22E there.

Man: Oh, I'm sorry. Hang on a moment. I'll move over and then you can sit down.

Woman: No problem. Take your time. The airplane will not take off for a few more minutes.

Man: Okay, now I'm settled.

The woman sits down.

Man: By the way, my name is Tom.

Woman: I'm Helen. Nice to meet ...

Man: Where are you from, Helen? I'm from Texas. Are you from Texas, too? I've lived in Texas since I was born. I grew up in Dallas. Do you know Dallas? Dallas is in Texas. Did you know that?

Woman: Yes, I ...

Man: Oh, so you are from Dallas, too?

Woman: No, I ...

Man: No? Oh, let me guess. You have a great tan so I think you are from California or Florida. No, wait a moment. I think you are also very fashionable so you must be from New York. Or maybe Boston.

Woman: Actually, I'm from New Zealand.

Man: New Zealand? Wow! Where did you learn to speak English?

Woman: In New Zealand. Everyone speaks English in New Zealand.

Man: Oh, I didn't know that. So what do you do, Helen? I'm in sales. Are you a salesperson, too? I have my own company. My wife and I make our products at home and then I sell them all over the world.

Woman: So what kind of products do you sell?

Man: Earmuffs. Would you like to buy a pair?

Woman: No, thanks. ... Excuse me, flight attendant, could I change seats, please?
